# Pupil Voice

Really good to get new ideas on how to push for higher grades. I feel more confident to revise now.

Cutting down notes so they are shorter and easier to learn.

Very helpful, I found out about some new revision techniques I haven't tried before.

It was good and useful for me as it taught me what I was doing wrong and how to change it.

The most important thing I learned today was all the new and very helpful techniques for revision, for example, using different colours.
