Pope Francis, Laudato Si' 13

Fratelli Tutti, 17

Ephesians 4:16

Matthew 25:35-36

Pope Francis, 20 September 2016

Catholic Social Teaching is at the heart of who we are as a school, guiding us to put our faith and beliefs into action in meaningful and practical ways. It challenges us to look beyond ourselves and to consider how we can make a positive difference in the world around us. Whether in school, within our local community, or further afield, it calls us to act with justice, compassion, and dignity, ensuring that everyone is valued and supported.

As a school, we are committed to exploring how we can live out the eight principles of Catholic Social Teaching in our daily lives. Through lessons, assemblies, and shared experiences, our students are encouraged to reflect on these principles and consider how they can apply them in their actions, decisions, and relationships with others. This journey helps to deepen their understanding of faith and empowers them to become active, responsible members of society.

Working closely with our students, we have also designed our own set of logos to represent each of the eight principles of Catholic Social Teaching. These student-created designs reflect not only creativity and teamwork, but also a genuine engagement with the values at the core of our faith. By giving students ownership of this work, we help them to see that these principles are not just ideas to learn about, but values to live by every day.

Through this shared commitment, we aim to create a school community where faith is lived out in action, where every individual is respected, and where together we strive to build a more just, compassionate, and hopeful world.

As a Catholic school, we aim to create a community where every person is valued, respected, and inspired to grow. We want our school to be a place where everyone feels happy, safe, and supported, and where each individual is encouraged to "live life to the full" in all that they do. Rooted in our faith, we strive to nurture not only academic success but also spiritual, moral, and personal development.

This means working together to build a community founded on kindness, compassion, and mutual respect. We encourage our students to recognise the dignity of every person and to act in ways that reflect the teachings of Christ. By putting others before ourselves, showing empathy, and supporting those in need, we create an environment where everyone can flourish.

Living out our mission calls us to take responsibility for our actions and to contribute positively to the world around us. Whether in the classroom, within our local community, or beyond, we aim to serve others with generosity and love. Through this shared commitment, we seek to develop confident, caring individuals who are equipped not only to succeed, but also to make a meaningful difference in the lives of others.
